

A photograph of three people in a laboratory or office setting. Two men and one woman are gathered around a laptop, looking at the screen. The man on the left is wearing a grey sweater and glasses. The man in the middle is wearing a light blue shirt, glasses, and a lanyard. The woman on the right is wearing a dark top and a blue lanyard. The background is dark with blue lighting and a computer monitor displaying data. A large, semi-transparent blue circle is overlaid on the image, framing the people.

systemseals

Let's talk

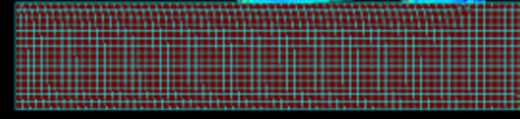

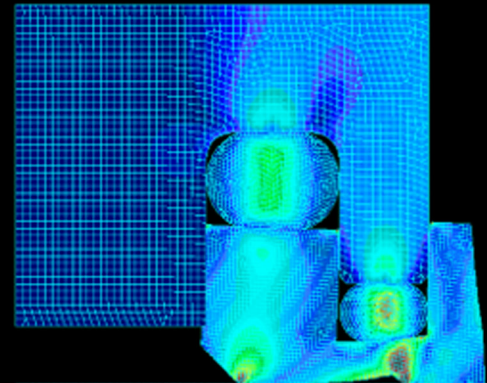

ENGINEER  TO ENGINEER

Let's talk *Our* know-how

Our knowledge of seals and sealing systems is our hallmark. From the computer screen to the production floor to the test bank, our expertise is imprinted on everything we deliver.

systemseals

- Applications specific testing
- Materials development
- Finite element analysis
- Proprietary design software
- Extensive experience
- Seal failure analysis
- Proprietary manufacturing processes

Let's talk *Your* applications

A knowledge of seals only delivers value if it's linked to a hands-on understanding of applications spanning world-class companies and a wide spectrum of sectors. This is where we are most at home – in the field, discussing solutions, engineer-to-engineer.

- Complete understanding of the application
- Application specific design
- Innovative tailored approach
- Validation testing
- Field support

 systemseals

Let's talk **Doing business better**

Years of experience have taught us how our clients like to do business. Our response is GlobalOne, putting a single global team at your disposal, irrespective of where your purchasing, your production or your application lies.

systemseals
GLOBALONE

- A global approach
- Dedicated team
- Speed in everything we do
- Engineer to Engineer
- Design-to-value
- Global manufacturing and sourcing
